

Product Name :
Automatic Lift Vending Machine

Product Code :
FOOD-VEG0002

Description :

Automatic Lift Vending Machine

Technical Specification :

Dimension(mm): 1920mm(h) X850mm(w)X795mm(d)

Weight: 260kg

Selection: 6 layers

Capacity: 240~490 products

Voltage: 110V/220V,60/50HZ

Power: 450W

Refrigeration system: The compressor adopts imported brand, quality guarantee, low energy consumption

Stand-alone data export: Through the USB interface, to facilitate the administrator export, manage and analyze sales data.

Dispensing Speed (s): 3 seconds

Cabinet Material: Stainless Steel

Glass Door Material: Explosion-proof tempered glass

Metallic keyboard: Explosion-proof, dust-proof, water-proof luminous

large glass window to display goods(Double-layer tempered glass , safe and convenient ,display goods explicitly)

optional 8-inch LCD screen for advertising, Support U disk videos, pictures display

Explosion-proof, dust-proof, water-proof luminous full metal keyboard

Microcomputer control system with intelligent data query, statistics, accounting, fault diagnosis and other management functions

Body material: All steel, durable

Main feature:

Adopt international standard design, up to international DEX standard
Support all kinds of international general standard peripherals
Customizable IC card payment, Sound control payment, Alipay, UnionPay, Mobile payment, Credit card payment or other payment methods, support 232 computer serial control
Main function:
Sell a variety of Snacks foods and canned, bottled, boxed, bagged and other beverages, with high economic returns.
Cargo trays can set temperature stratified according to the need of customers
Power-off protection and memory functions
Drop sensor & vigilant vend detection system
Machine has digital temperature display
Leakage protection
GPRS wireless remote management system
PCT heating system
All sales records of machines can generate a table without network via the USB interface to simplify operation and management.
Our advantages:
Effective electronic thermostat controlled energy efficiency cooling feature providing long product life.
Sturdy steel construction with durable powder coat painted surface for years of service
Big inventory space for convenient items supplement.
When selections of the machine are out of stock, it can check by itself.
Automatically restore from simple failure, reduce maintenance workload.
Self-count the sold commodity, easy management.
Cooling system with R134A refrigerant can meet RHOS requirements
Power failure protection function
The machine can diagnose itself automatically. And the diagnosis results will be delivered promptly to the operator.
Quick price-setting
Seek out forged notes or false coins
Summary for total turnover
