

Product Name :
Orange Peeling and Extracting Machine**Product Code :**
FOOD-ORN0003**Description :**

Orange Peeling and Extracting Machine

Technical Specification :

The processing capacity is from 3-10 ton.

It is easy to operate fruit peeling and extracting machine and with high efficient and high juice yield.

The effect of extrusion can be adjusted according to the different kinds of fruit.

It is equipped with bucket for receiving juice, pulp transporter and rind transporter.

Production capacity(t/h) Motor power(kw) Overall dimension(mm)

3	8	1600*1200*1800
5	11	1800*1300*2200
10	15	2000*1350*2500
