

Product Name :
Liquid Filler

Product Code :
FOOD-SUK-MES118005

Description :

Liquid Filler

Technical Specification :

Liquid filler is a kind of semiautomatic piston liquid filling machine, and suitable for filling various light viscous liquid products.

Complying with GMP standard, all product contact parts are in stainless steel.

Filling with high precision, filling volume and speed can be adjusted.

Filling head adopt anti-drip and anti-drawing device.

Combined with packaging machine and other packaging related equipment.

Working mode: Piston type

Weighing Range: 10-500ml(can be customized to 3000ml)

Weight Accuracy: $\pm 1\%$

Speed: 0-50times/min

Hopper Volume: 70L

Voltage: 380V 3-Phases 50/60HZ
