

Product Name :
Automatic Bottle Fruit Juice Processing Machine

Product Code :
FOOD-JFM0001

Description :

Automatic Bottle Fruit Juice Processing Machine China Manufacturer

Technical Specification :

Capacity :2000bph~20000bph

Volume :250ml~2L

Bottle :PET bottle or Glass bottle can be customized

Machine has washer,filler,capper three functions in one body,the whole process is automated.

This Automatic Bottle Fruit Juice Processing Machine has washer,filler,capper three functions in one body,the whole process is automated. It is suitable for high temperature PET bottled juice and tea beverage filling. It adopts advanced micro-pressure gravity filling principle. It has a complete perfect recirculation system, and can also achieve a separate return gas without contact with the material, avoiding secondary pollution and oxygen. It is made of high stainless steel.

Our advantage

All core components are manufactured by CNC machining center. Whether it is a small production line of 2000 bottles or a high-speed production line, it is composed of the entire CNC machine.
