

Product Name :
Reverse Osmosis Systems

Product Code :
FOOD-UTLY0001

Description :

Reverse Osmosis Systems

Technical Specification :

A reverse osmosis system is designed for removing contaminants from water by using pressure to force water molecules through a semipermeable membrane. During this process, the contaminants are filtered out and flushed away, leaving clean, delicious drinking water.

The applications for reverse osmosis systems (RO) are process water, rinse water, steam boilers, heating & cooling circuits, agriculture, desalination, food & beverage, utility water treatment.
